## PH FORMULA CONCEPT

PH formula is a pharma-cosmeceutical which finds itself between new generation cosmeceuticals and the doctors practice. This dermatological skin resurfacing system focuses on a range of skin disorders which include premature ageing, sensitive skin, rosacea, acne and hyperpigmentation skin.

### A.G.E. SKIN RESURFACING

The A.G.E. solutions are active and effective skin resurfacing solutions which targets typical signs of ageing like photo-ageing, pigment changes, dull sallow appearance, superficial and medium expression lines.

**Treatment time - 1 hour 15 min**

PRICE: A.G.E 1/2 **R650**  
A.G.E 3 (medical) **R750**

### C.R. SKIN RESURFACING

The C.R. complex is an active and effective complex for chronic redness and selected rosacea type of skin. Specifically formulated with anti-microbial activity to help reduce redness and prevent relapses.

**Treatment time - 1 hour 15 min**

PRICE: **R650**

### A.C.N.E. SKIN RESURFACING

The A.C.N.E solutions effectively penetrates the pores to assist in dissolving impactions and help control microbial proliferation in acne prone skin. The solution offers anti-inflammatory benefits along with a strong keratolytic action to help normalize problematic skin.

**Treatment time - 1 hour 15 min**

PRICE: A.C.N.E 1/2 **R650**  
A.C.N.E 3 (medical) **R750**

### M.E.L.A SKIN RESURFACING HYPERPIGMENTATION

This action is achieved through the mechanism of a unique delivery vehicle complex (PH-DVC) that ensures maximum controlled delivery of actives without any negative side effects normally seen with conventional peelings.

**Treatment time - 1 hour 30 min**

PRICE : M.E.L.A level 1 **R650**  
M.E.L.A level 2 **R700**  
M.E.L.A level 3 (medical) **R850**

## S.O.F.T. RESURFACING CREAM SPANISH PEEL

This cream-based formulation is designed for mild but effective skin resurfacing. Formulated with a gentle combination of Salicylic acid and Retinol to assist in superficial exfoliation and cell renewal, reducing the appearance of fine lines and wrinkles.

**Treatment time - 1 hour 15 min**

PRICE: Soft **R650**  
Intensive **R750**

### PH FORMULA 365 RESURFACING

A comprehensive treatment for skin resurfacing & hydration, ideal all year round. Suitable for all skin types as active ingredients are combined in order to enhance the natural barrier of the skin, greatly reducing skin water loss that occurs during the winter and summer months.

**Treatment time - 1 hour**

PRICE: **R700**

### PH FORMULA TCA PEEL

(TCA) chemical peels penetrate the skin more deeply than light chemical peels. In administering a medium chemical peel, the doctor applies a solution containing trichloroacetic acid to the skin. This chemical solution, which is custom formulated for each patient, works by removing the dull, damaged outer layers of skin – those affected by acne, fine lines, sun exposure, and other factors. In the week or so after treatment, these dead layers of skin slough off, revealing a new, smooth layer of skin.

TCA chemical peels are popular because they are an excellent “spot” treatment that can be used on any area of the body and can be completed in as little as 15 minutes. For best results, patients typically complete a prescribed series of treatments, with each treatment spaced two to three months apart.

**Treatment time - 1 hour 30 min**

PRICE: (medical procedure) **R1000**

### MT-DERMA PEN

Radiofrequency Microneedling with the Intracel rejuvenates the skin using a cutting-edge microneedling device that utilizes energy/heat called the Dermapen. The adjustable, insulated and precise microneedles deliver targeted energy deep to the layers of the skin, regardless of skin color type. Patients see improvement in texture, scars, fine lines, stretch marks, tone and skin glow, with minimal to no downtime.

**Treatment time - 1 hour 15 min**

PRICE: **R850**

## PERMANENT MAKE-UP

PRICE: **MICROBLADING/BROWS R1200**  
**EYELINER TOP & BOTTOM R1000**  
**LIP LINER R1300**  
**FULL LIPS R1500**  
**TOUCH UP WITHIN 4-10 WEEKS R750**

### BOTOX & FILLERS

Treatments done by medical doctor in salon.  
**Dr Katie Yazbek - MBChB, MBA (UFS)**

### NEOSTRATA GLYCOLIC MEDICAL PEEL

A 25% blend of AHAs and PHAs including Glycolic Acid, Mandelic Acid and Gluconolactone that exfoliates dead, dull surface layers, and enhances the process of cell renewal, to reveal healthier cells. Clinical studies after one month of twice weekly use.

- Four Rejuvenating Glycolic Acid Peels - 20%, 35%, 50%, 70% Glycolic Acid concentrations.
- Two targeted benefit peels:
  - **Clarifying Peel** - for oily, acne prone skin
  - **Brightening Peel** - to help control the signs of pigmentation and sun damage.

**Treatment time - 30 min**

PRICE: **R500**

### TINTING & SHAPING

PRICE: **EYEBROW TINT & SHAPE/WAX R70**  
**EYELASH TINT R120**

### INDIVIDUAL EYELASH EXTENTIONS
